Stay safe from APP scams

Every year thousands of people are victims of APP scams. An APP (authorised push payment) scam is when you're tricked into paying money to someone who isn't genuine or for a different purpose from what you meant. Because it seems convincing, it's easy to get caught out.

Since May 2019, we've been a voluntary member of the APP Scam Code. Under the Code customers who are protected are refunded if they fall victim to an APP scam, provided they did everything expected of them under the Code.

What's happening?

From **7th October 2024**, you'll be protected by new rules from the Payment Systems Regulator. The new rules will apply to all financial companies and mean you're even more likely to be refunded if you're the victim of an APP scam.

Find out more about APP scams at www.natwest.com/safefromscams. This includes important details on the new protections, including on when we will, and won't, refund you.

We'll be updating our terms soon with these changes. You'll be covered for Faster Payments and CHAPS made to UK accounts on or after 7th October 2024. This does not include card or other payments.

We just wanted to let you know and there's nothing you need to do. But if you think you've been victim of a scam, get in touch with us, the faster you act the better.

Overdraft Arrangements

For charging periods starting on or after 18th October 2023, we reduced unpaid transaction fees from £2.15 to £1.55 for personal accounts. For more information please go to natwest.com/current-accounts/rates-and-charges.html.

Any overdraft related charges will be notified to you in your 'Pre Advice of Interest and Charges'. For personal accounts, we will not charge you more than £19.40 in a monthly charging period for an unarranged overdraft or any unpaid transactions. For charging periods starting on or after 18th October 2023, this will be reduced to £18.80 in a monthly charging period.

NAR - the Nominal Annual Rate is the annual rate of interest you'll pay on your overdraft. It doesn't take into account that you'll pay interest on any interest that has been added to your overdraft balance in the previous month.

EAR - the Effective Annual Rate is the real cost of an overdraft shown as a yearly rate, which takes into account how often we charge interest to the account, if this applies.

AER - the Annual Equivalent Rate is used for accounts where you earn interest, if this applies. It shows what the gross interest rate would be if we paid it to the account every year and you then received interest as part of the account balance.
